An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher G. Hayden on 2/23/06.

The application has been amended as follows:

SPECIFICATION:

Line 4 of section [0034], after 'Fe,' insert --Mo--, as is clearly supported by original; claim 4.

CLAIMS:

Claim 12, line 10, after 'abrasive', insert , --, wherein the stabilizer comprises B, Al, or W--.

Claim 16, line 2, before 'tungstate', insert --W in the form of--.

Claim 32, line 5, cancel "borate" and insert --stabilizer--.

Claim 34, lines 4-5, cancel "Al containing".

The following is an examiner's statement of reasons for allowance:

The claimed invention is novel over the prior art of record because said art fails to teach, suggest or appreciate the claimed composition with respect to (1) an abrasive having a surface to which are bonded a catalyst and the claimed stabilizer, as depicted in independent claim 1 and

(2) an abrasive having a surface to which are bonded the claimed catalyst and the claimed stabilizer, as depicted in independent claims 28 and 29. With respect to independent claim 12, this claim clearly depicts a structure (when the individual components are bonded) which is not appreciated, suggested or taught by the prior art. This aspect is clearly addressed in applicants response. In addition, this claim requires specific stabilizers not appreciated, suggested or taught by the prior art.

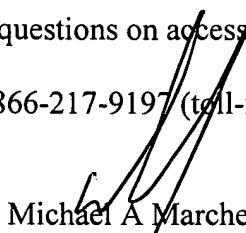

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
